TAKE A LOOK AT THE FACTS

The Federal Environmental Protection Agency (EPA) estimates that in 2005, between 1.5 and 1.9 tons of discarded electronics ended up in American landfills.

The Computer Takeback Campaign reports that 130 million cell phones are thrown away every year.

THROWING AWAY MONEY!

Not only are we throwing away things that should be recycled, we are throwing away money. That is why we are here!

GET GREEN is committed to joining with you to keep our planet green and healthy by reusing or recycling those cellphones that are in your (and your neighbors') junk drawers!

3 Steps to GET GREEN!

1. SIGN UP

Register online at GetGreentoGetGreen.com to receive by mail a free Fund Raising Kit. The Kit contains everything you need to run a successful drive: flyers, posters, collection boxes and more. Other support resources are available for download on the web site.

2. COLLECT AND SHIP

Organize your group to do a cell phone collection drive and/or just put the collection boxes in high traffic locations. When the boxes are full, ship them to us. We Pay the Shipping!

GET PAID

When we receive your shipped boxes we will count the phones and determine the value of each phone. Within a few weeks you will receive a check by mail along with an accounting of the number and types of phones you sent.

What we pay you for the phones you collect.

Cell Phone (type)	Working (each)	Non-working (each)
Any cell phone.	25 cents	25 cents
Any cell phone less than two years old.	Up to \$30	25 cents
Any smart phone.	Up to \$50	25 cents

Raise funds while you green up the earth.

What do you do with your old cell phone when you get a new one?

130 million cell phones are thrown away every year. That would be at least 32 million dollars worth of scrap and refurbished cell phones that could be going to organizations like yours.
